

# FLOW-TRONIC SA NV

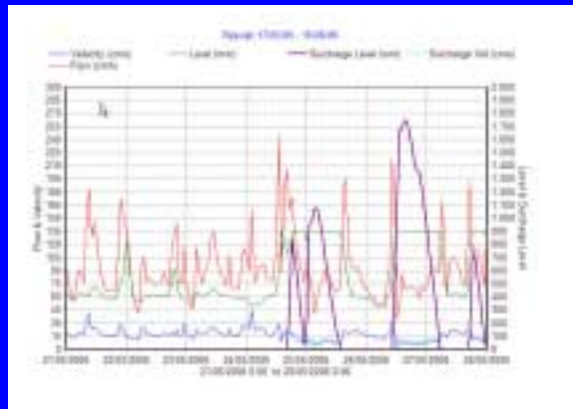

**NEWS N°4  
December 2006**

Dear All,

Just a few things to follow:

## Flo-Dar with SVS (Surcharge Velocity Sensor) – option in the Netherlands

The graphics and the tabulars with data clearly show the take-over of the measurements by the on-board pressure sensor (level) and by the electromagnetic sensor option (velocity) when the sewer system becomes under pressure.

| Date / Time      | Velocity | Level | Surcharge Level | Surcharge Vel. | Row         |
|------------------|----------|-------|-----------------|----------------|-------------|
| 26/05/2006 10:37 | 30,8     | 524   | 0               |                | 204,88      |
| 26/05/2006 10:42 | 31,8     | 541   | 0               |                | 224,61      |
| 26/05/2006 10:47 | 34,9     | 560   | 0               |                | 253,36      |
